

# FINISHING TECHNIQUES

## TWISTING (OR PLYING) THE FRINGE

Divide the number of threads for each fringe into two groups. Twist each group clockwise until it kinks. Bring both groups together and allow them to twist around each other counterclockwise (or twist in that direction). Secure the ends with an overhand knot. (Use the same method to make a plied cord by attaching one end to a stationary object.)

## SIMPLE HEMSTITCHING

Weave several picks of plain weave (or the basic structure of the piece), ending with the shuttle on the right side if you are right-handed, left side if you are left-handed. Measure a length of weft three times the warp width and cut, leaving the measured length as a tail. Thread the tail into a blunt tapestry needle.

Take the needle under a selected group of ends above the fell and bring it up and back to the starting point, encircling the same

group of ends. Pass the needle under the same group, bringing it out through the weaving two (or more) weft threads below the fell.

Repeat for each group of ends across the fell. Needle weave the tail into the selvage and trim.

## DOUBLE (ITALIAN) HEMSTITCHING

Weave several picks of plain weave (or of the basic weave structure of the piece), ending with the shuttle on the right side if you are right-handed, on the left side if you are left-handed. Measure a length of weft four times the warp width, cut, and then thread this tail into a blunt tapestry needle.

Take the needle under a selected group of warp threads above the fell and bring the needle back to encircle the ends. Next, pass the needle under the same ends but come up two or more weft rows down from the fell. Then bring the needle back around the same group of ends below the fell. Repeat, encircling the next group of ends.

## LADDER AND ZIGZAG HEMSTITCHING

For ladder hemstitching, work a row of simple hemstitching, following instructions given here. Insert a spacer of heavy yarn or yarn bundle. Leaving a tail three times the warp width, weave four picks of plain weave. Thread the tail in a needle and hemstitch over two rows above the spacer, encircling the same groups of ends as for the first row.

For zigzag hemstitching, encircle groups of ends in the second row starting at the midpoint of the ends encircled in the previous row to offset the two rows of stitches.

*Hemstitching tip: To hemstitch the first end of a piece, weave a header, weave four or five picks of plain weave (or of the basic weave structure used in the piece), and hemstitch over the top two or three weft rows. Weave the piece and then hemstitch the other end over the last two or three weft rows. Remove the fabric from the loom and discard the header and weft threads placed below the first hemstitching.*

Double hemstitching
